1. Scan the QR code to download the APP.
2. Choose the mobile phone system that suits you to install, and register / log in.

Method 2

1. Search "DUALTRON" in the application and download it, and register / log in.

Pair the Bluetooth on the APP

Power on the scooter.

Click "Search vehicle" and pair with your scooter. * The scooter is connected to the Dualtron app when the Bluetooth symbol lights up.

Select "bind as owner".
(No one else can connect, only people authorized by you are allowed to connect. Authorizations are created on the app.)

How to Ride

1. Power on the scooter and choose the speed mode. * Please choose the speed mode before riding! Note: Speed mode can be choose via the Dualtron app.

2. Stand on the footboard with one foot and push off with the other foot to start gliding. * Make sure you have disabled SAFE mode. (SAFE mode setting via Dualtron app. Deactivate safe mode by squeezing brake lever.)

3. Put both feet on the footboard and stand stably. Pull the accelerator to speed up.

4. Slow down by releasing the accelerator and squeezing brake levers.

5. To turn, shift your body and turn the handlebar slightly. * Please watch out for road conditions, sufficient turning space is required.

When hard braking, serious danger or injury may occur. Maintain a moderate speed and look out for potential hazards.

Folding

① Pull the index pin outward, then rotate it slightly to ensure a secure fit; the index pin will get stuck and the folding handle will work.

② Pull the folding handle; the folding plunger will come out of the upper socket and slip into the lower socket.

When the folding plunger gets stuck in the lower socket and the folding handle resets in the stem headset, please remember to insert the index pin back to fix the folding system.
